

SafetyPro 250

DURABILITY AND SAFETY

SafetyPro 250 is a heavy duty portable barrier specifically designed for restricting access to work or cleaning areas. Manufactured from heavy duty steel with a solid cast iron base SafetyPro has the durability to withstand years of wear and tear in working environments. An 11'3.4m belt reduces the number of barriers needed speeding set up and removal plus SafetyPro can be quickly broken down and stored flat.

Cast iron base with replaceable anti scuff cover

Heavy duty post steel
